

**RFI 050
Pebble Project EIS**

Request for Information

Title/Subject:	GIS Data for Chapter 10 EBD Trace Elements - Shallow Soil Sample Locations
Requestor:	Paul Myerchin, AECOM
Date Transmitted:	6/22/18
Recipient:	Pebble Limited Partnership
Response Requested by:	7/2/2018
Rationale:	The GIS data is needed to develop a figure of surface soil sample locations relative to the project footprint. The data will support tabulated trends in trace elemental concentration occurrence, and demonstrate overall sample distribution and study area coverage. GIS data is currently available for vegetation sample locations, which sometimes coincide with soil sample locations, but not in all circumstances.
Describe the Information Requested and Level of Detail:	Please provide GIS data or coordinates in an appropriate format to populate surface soil sample locations on a corresponding project figure consistent with that shown in Figure 10.1-1 or equivalent in Chapter 10, Trace Elements Study.

Recipient Response Form

Date Received from USACE:	6/22/2018
Response from Recipient (Describe Information Requested to the Level of Detail Requested; Provide Attachments as Needed):	File geodatabase (GIS) with sediment and soil/vegetation sample locations is submitted with this response.
List Number and Type of Response Attachments:	1. SoilSed_20180626.gdb (File Geodatabase)
Date Returned to USACE:	06/26/2018

AECOM Intake Form

Date Response was Received:	6/26/2018
Received by:	Bill Craig, AECOM
Describe any Follow-up Related to this RFI:	None
