

NTC Comments – Pebble Project Preliminary Draft EIS, Section 3.2 - Lands Ownership, Management, and Use

Agency	Comment No.	Section, Paragraph, and Page #	Cooperating Agency Comment (and Purpose of Comment)	Proposed Resolution (Additions or Deletion of Text)	Response
NTC	1	Section 3.2.2.6 Local Management	Please provide details in the narrative and with maps regarding which communities “have developed community plans” and could suffer indirect effects from management on “adjacent lands.” Using the phrase “some communities” makes the information in this section unverifiable.		The text was edited to include types of indirect effects from adjacent management decisions. Because project-related infrastructure would not be developed on lands that are in under guidance of community plans, additional detail on which communities have plans was not added.
